## OUR AMBITION

TO BE IN THE FRONT RANK OF FINANCIAL INSTITUTIONS in our State is both justifiable and laudable. For thirty-four years we have striven to provide for every need of our patrons, at the same time laboring to create the strength and security with which every well conducted bank should surround its responsibilities. The measure of our success is to be found in our record and the constantly increasing list of satisfied customers.

But our ambition grows with our business and each year's added experience gives us confidence to believe that we may yet serve a much larger number of those in need of banking facilities.

Our business by mail, increasing as it does each month, indicates a widening of the territory we serve, and the steady growth of our Trust Department is evidence of the acceptance of the modern idea that enables anyone to be relieved

of the burden of managing investments and which provides a safe, convenient, and systematic method for settlement of his or her estate.

We urge and invite correspondence from anyone desiring advice concerning any financial matters and offer the facilities of our several departments for the varying needs of those who through inability or choice desire assistance or advice in the management of their monetary affairs.
